## EUCALYPTUS

**The Essentials:** *aromatic, topical*

Eucalyptus was the first oil I purchased beyond my starter kit. I am crazy about its clean, stimulating aroma, and you'll love the way it helps you breathe when you have a cold or congestion, or when exercising.

**Wisdom from the Garden**

Eucalyptus, steam distilled from the leaves of an evergreen tree native to Australia, has long been used as a cough suppressant and to clear mucous from the chest. Eucalyptus is an anti-inflammatory that can ease cold sore symptoms and joint pain. Because of the oil's antibacterial properties, it can be used for oral care and as an ingredient in natural deodorants.<sup>1</sup> Eucalyptus essential oil and olive oil combine to create a synergy with antimicrobial and wound-healing properties, beneficial for topical application.<sup>2</sup>

The clean, refreshing aroma of eucalyptus blends well with geranium, lemon, lavender, lemongrass, or sandalwood in the diffuser.
